With this universal smartphone tripod, your smartphone is always within reach. In height, the tripod covers an application range from 600 to 1400 mm. The mount is suitable for all flat devices with a width of 60 to 84 mm. The operation is simple and fast. Insert smartphone - press clamping jaws together - done. The device is released at the push of a button. The clamping jaws with integrated rubber pads guarantee a secure hold. The exchangeable support bars with different depths can be individually adapted to the smartphone, so that the function of the operating elements on the device is not impaired. Thanks to the flexible ball joint, the holder can be tilted up and down, and rotated 360°. The flexible support arm with a length of 100 mm provides additional individual setting.
