

53-916X URSA STRAPS FOAMIES MICROPHONE MOUNTS

53-9161 URSA STRAPS FOAMIES MICROPHONE MOUNTS Soft foam, 24 x 17 x 9mm, black (pack of 12)

53-9162 URSA STRAPS FOAMIES MICROPHONE MOUNTS Soft foam, 24 x 17 x 9mm, white (pack of 12)

The URSA Foamies soft foam mounts with flat sides can be stuck directly to skin or clothing/costume providing a soft, quiet buffer reducing clothing friction noise. Made from high quality sponge the Foamies measure 24mm in length, 17mm wide and 9mm thickness and can be easily cut to accommodate a particular scenario. The 2.5mm diameter hole can stretch to accommodate 3 to 5mm diameter lavalier microphones. Foamies can also be installed onto the tip of an antennae of your transmitter/receiver. This can help reduce the RF loss sometimes experienced when the antennae is pressed against the body.

Available in Black or White the Foamies are supplied in packs of 12.

Foamies accommodates the following popular lavalier microphones as well as others of a similar size:

Sanken	COS11
DPA	4060/4071
Countryman	B3
Sennheiser	MKE2 & ME2
RØDE	Lavalier
